01 Executive intelligence brief

Executive summary

Tech Arch Softwares is a B2B digital agency and IT services provider headquartered in Panchkula, Haryana, offering web development, funnel development, creative design, and digital marketing solutions.

Current position: The business operates an established web presence with visible client testimonials and service offerings, but shows minor technical gaps such as missing image alt tags and template placeholder artifacts.

Biggest opportunity: Capitalizing on localized demand for end-to-end digital transformation and performance marketing by refining technical SEO and lead-capture user experience.

Confidence: medium

Key risks

- Competitive local IT market in Panchkula and surrounding tech hubs
- Minor website polish issues like placeholder text that could impact initial brand trust

02 Business model & customer acquisition

Business model: B2B Digital Agency / IT Services Provider operating on project-fee or retainer models.

Products and services

- Digital Marketing
- Funnel Development
- Creative Logo & Graphics
- Website Development
- Responsive Design

Target audiences

- Small and medium businesses seeking online growth
- Enterprises requiring custom web development and software solutions
- Brands looking for digital marketing and sales funnel optimization

Customer acquisition channels

- Official Website
- Social Media Channels (Facebook, LinkedIn, Instagram, Twitter, YouTube)
- Google Business Profile / Local Search

Verified facts

- Tech Arch Softwares is headquartered at Twin Tower, Plot No. 7, 3rd Floor, IT Park, Sector 22, Panchkula, Haryana 134116 [Source: https://www.facebook.com/techarchsoftwares].
- The business was established around 2014 and provides application development and digital marketing services [Source: https://tracxn.com/d/legal-entities/india/tech-arch-softwares-private-limited/__IUAHQybTQH4g8a0ue3JTMnq0KKHMJOfYTDzpna1azGw].
- Its official website is https://www.techarchsoftwares.com/ [Source: https://www.facebook.com/techarchsoftwares].

Assumptions to validate

- Assumption: The business primarily utilizes project-fee billing or monthly retainers for ongoing digital marketing and web maintenance services.

03 Local market & positioning

Tech Arch Softwares is positioned within the IT Park cluster of Panchkula as a comprehensive digital marketing and software development provider.

Local market signals

- Headquartered in the IT Park sector of Panchkula, Haryana [Source: https://www.facebook.com/techarchsoftwares]
- Competes within a regional landscape that features other digital and IT service providers in the Tricity area

Differentiation opportunities

- Highlighting integrated sales funnel development alongside standard web design
- Leveraging verified Google partner status and client video testimonials to build local market trust

Evidence gaps

- Lack of granular market share data, official revenue figures, or specific local client volume metrics

04 Competitor intelligence

ThinkNEXT Technologies

Location relevance: Panchkula, India

Website: https://www.thinknext.co.in/seo-company-panchkula

Observable strengths

- Established local presence in Panchkula offering SEO and web development solutions

Comparison: Competes directly for local businesses seeking SEO and digital marketing services in Panchkula.

Confidence: medium

Sources: https://www.thinknext.co.in/seo-company-panchkula

05 Digital presence & customer journey

Website status: verified_existing

Prospective clients discover the brand via search or social channels, land on the homepage to review core services and past video testimonials, and convert via a contact form or direct WhatsApp link.

Channels found

- Official Website (https://www.techarchsoftwares.com/)
- Facebook Page
- LinkedIn Company Page
- Instagram Profile
- Twitter Profile
- YouTube Channel
- WhatsApp Business Contact

Visibility gaps

- 72 out of 131 inspected images lack descriptive alt text, impacting image search optimization and accessibility

Trust and conversion gaps

- Template placeholder artifacts ('job title, comapny') appear near testimonial sections and detract from professional polish

06 Strategic insights

Image Accessibility and Technical SEO Optimization

Priority: medium • Confidence: high • Category: seo

A significant portion of inspected images on the homepage lack alt attributes.

Evidence: Inspection data shows 72 out of 131 images do not have alt text.

Recommended action: Conduct a comprehensive media audit and add descriptive, keyword-relevant alt text to all website imagery.

Expected impact: May improve image search visibility and overall web accessibility compliance.

Sources: https://techarchsoftwares.com/

Testimonial Section Polish and Trust Enhancement

Priority: high • Confidence: high • Category: content

Unedited template placeholder text is visible within the client testimonial sections.

Evidence: Repeated instances of 'job title, comapny' appear alongside reviewer names.

Recommended action: Update all testimonial entries with proper client titles, companies, and verified credentials to maximize conversion trust.

Expected impact: May increase visitor trust and reduce friction during the inquiry phase.

Sources: https://techarchsoftwares.com/

07 Prioritized growth opportunities

Interactive Cost Calculator or Lead Magnet

Priority: medium • Confidence: medium • Category: conversion

Adding interactive elements can actively engage prospective clients looking for custom software quotes.

Evidence: Service pages currently rely primarily on standard contact forms without instant estimation tools.

Recommended action: Implement an interactive project cost estimator or instant quote tool to capture early-stage leads.

Expected impact: May increase user engagement and form submission rates.

08 30 / 60 / 90-day action plan

FIRST 30 DAYS — Audit and fix all missing image alt tags across the website.
Why this matters: Improves foundational technical SEO and basic web accessibility.

Success metric: 100% of core images possessing descriptive alt text.

Dependency: Access to CMS media library.

Priority: medium

FIRST 30 DAYS — Clean up template placeholder text in the client testimonial sections.
Why this matters: Ensures professional presentation and builds credibility with prospective leads.

Success metric: Zero visible placeholder strings in testimonial blocks.

Dependency: Content management access.

Priority: high

DAYS 31 60 — Strengthen local schema markup for the Panchkula IT Park address.
Why this matters: Enhances local search clarity for regional queries.

Success metric: Validated local business schema implementation.

Dependency: Developer access to site header/footer code.

Priority: medium

DAYS 61 90 — Evaluate lead form completion tracking and optimize conversion pathways.
Why this matters: Ensures accurate attribution of inbound inquiries from digital channels.

Success metric: Configured conversion goals in analytics tracking.

Dependency: Analytics platform access.

Priority: low

09 Measurement plan

Organic Search Visibility & Impressions
Tracks improvement in search engine discoverability following technical fixes.

How to measure: Google Search Console performance reports

Baseline: Unavailable without direct analytics access

Inquiry Form Submissions
Measures lead generation effectiveness from website traffic.

How to measure: Contact form conversion event tracking

Baseline: Unavailable without direct analytics access

10 Supporting findings

Strengths supported by evidence

Comprehensive Service Portfolio
Priority: low • Confidence: high • Category: business

Offers a wide range of web development, funnel design, and digital marketing services.

Evidence: Listed clearly in main navigation and service sections.

Recommended action: Continue promoting end-to-end digital solutions.

Expected impact: Maintains clear service positioning.

Sources: https://techarchsoftwares.com/

Risks and weaknesses

Missing Image Alt Tags

Priority: medium • Confidence: high • Category: seo

A high number of images lack alt attributes.

Evidence: Inspection recorded 72 images without alt text out of 131.
Recommended action: Add alt descriptions to all media assets.
Expected impact: Improves accessibility and SEO hygiene.
Sources: https://techarchsoftwares.com/

Recommended improvements

Remove Placeholder Text

Priority: high • Confidence: high • Category: content

Placeholder strings appear in the testimonial section.

Evidence: Inspection found 'job title, comapny' text strings.
Recommended action: Update testimonials with verified client details.
Expected impact: Enhances overall brand credibility.
