01 Executive intelligence brief

Executive summary

Tech Arch Softwares is a web development and digital marketing service provider located at Twin Tower, IT Park, Sector 22, Panchkula, Haryana, offering comprehensive IT solutions, web design, SEO, and funnel development.

Current position: The business operates from an established corporate hub in Panchkula with a live WordPress-based website showcasing client testimonials, agency certifications, and service offerings, alongside active social media channels.

Biggest opportunity: Enhancing on-page SEO, fixing image accessibility gaps, and adding structured conversion funnels or interactive cost estimators to capture higher-intent local and international leads.

Confidence: high

Key risks

- Incomplete image alt text across a majority of site assets negatively impacts image search rankings and accessibility compliance.
- Intense local competition from co-located IT park agencies offering overlapping software and development services.

02 Business model & customer acquisition

Business model: B2B service provider offering IT solutions, web development, digital marketing, and software development services.

Products and services

- Website Development
- Digital Marketing
- Funnel Development
- Creative Logo & Graphics
- Responsive Design
- Search Engine Optimisation (SEO)
- Pay-Per-Click Advertising (PPC)

Target audiences

- Small and medium enterprises looking for digital transformation
- Businesses seeking website development and redesign services
- Companies wanting to improve online visibility through SEO and digital marketing

Customer acquisition channels

- Official website lead capture forms
- Social media profiles (Facebook, LinkedIn, Instagram, Twitter, YouTube)
- Direct phone and WhatsApp inquiries
- Google Partner directory listing

Verified facts

- Tech Arch Softwares is located at Twin Tower, Plot No. 7, 3rd Floor, IT Park, Sector 22, Panchkula, Haryana 134116 [Source: https://techarchsoftwares.com/ and https://magicpin.in/Panchkula/Sector-2/Other/Tech-Arch-Softwares-Pvt.-Ltd-%7C-Web-Development-and-Digital-Marketing-Experts/store/224a0b9].
- The official website is https://www.techarchsoftwares.com/ [Source: https://magicpin.in/Panchkula/Sector-2/Other/Tech-Arch-Softwares-Pvt.-Ltd-%7C-Web-Development-and-Digital-Marketing-Experts/store/224a0b9].
- The business phone number is 0172 299 6009 [Source: business profile].
- Executive leadership includes Mohan Singh (Chief Operation Head), Jitender Chauhan (CEO & Business Analyst), and Pankaj Nagpal (CTO & CFO) [Source: https://techarchsoftwares.com/about-us].

Assumptions to validate

- Assuming the business primarily targets international and domestic clients for outsourced web development and digital marketing services based on client testimonials from various countries.

03 Local market & positioning

Positioned within the HSIIDC IT Park ecosystem in Panchkula, Tech Arch Softwares competes directly with regional IT and software development agencies targeting both domestic and international clientele.

Local market signals

- Co-located within the same IT park sector as other specialized technology and software firms like TeQ Mavens and Technijian India.
- Leverages digital marketing case studies and testimonials from diverse global clients to establish trust.

Differentiation opportunities

- Highlighting specialized sales-driven funnel development alongside standard web design.
- Leveraging verified Google Partner agency status to build instant credibility.

Evidence gaps

- Exact market share, local search rankings, pricing tiers, and client acquisition volume metrics are unavailable.

04 Competitor intelligence

TeQ Mavens

Location relevance: Co-located in the same business park building (Twin Tower, Sector 22, IT Park, Panchkula)
Website: https://www.teqmavens.com/
Observable strengths

- Specialized focus on custom mobile application development.

Comparison: Direct local competitor offering overlapping software and development capabilities from the same IT park.
Confidence: high
Sources: https://www.teqmavens.com/contact

Technijian India

Location relevance: Operates within the same IT Park zone in Panchkula
Website: https://technijian.in/
Observable strengths

- 24/7 IT support infrastructure.

Comparison: Competes in the broader IT solutions space within the same regional cluster.
Confidence: medium
Sources: https://technijian.in/contact-us

05 Digital presence & customer journey

Website status: verified_existing
Visitors land on a conversion-focused homepage displaying service pillars, agency certifications, and client reviews, and can submit inquiries via contact forms or direct WhatsApp links.

Channels found

- Official Website
- Facebook
- Twitter

- YouTube
- LinkedIn
- Instagram
- WhatsApp Business

Visibility gaps

- 72 out of 131 inspected images lack alt text attributes, reducing search visibility for image assets and failing basic accessibility standards.

Trust and conversion gaps

- Contact form fields and layout could be streamlined to minimize friction during lead capture.

06 Strategic insights

Image Accessibility and On-Page SEO Deficiency

Priority: high • Confidence: high • Category: seo

A significant portion of website images (72 out of 131) lack alt text descriptions.

Evidence: Website inspection data reveals 72 images without alt attributes.
Recommended action: Conduct a full media audit and add descriptive, keyword-relevant alt tags to all unoptimized images.
Expected impact: May improve image indexation and overall on-page SEO health.

Proximity Competition in IT Park Cluster

Priority: medium • Confidence: high • Category: competition

Competing agencies operate in the exact same IT park building and sector.

Evidence: Research identified TeQ Mavens located at Twin Tower, Sector 22, Panchkula.
Recommended action: Sharpen unique value propositions beyond generic web development, emphasizing proprietary funnel development and documented client success stories.
Expected impact: Helps differentiate the brand against localized competitors.
Sources: https://www.teqmavens.com/contact

07 Prioritized growth opportunities

Interactive Lead Capture Integration

Priority: medium • Confidence: medium • Category: conversion

The current contact mechanism relies on standard static forms.

Evidence: Inspection of the homepage shows standard WordPress contact forms without interactive calculators.
Recommended action: Implement an interactive project cost estimator or ROI calculator to engage high-intent visitors.
Expected impact: May increase user engagement and lead conversion rates.

08 30 / 60 / 90-day action plan

FIRST 30 DAYS — Audit all website images and populate missing alt text attributes.

Why this matters: Directly resolves on-page SEO and accessibility gaps.
Success metric: 100% of inspected images possessing descriptive alt attributes
Dependency: Content management system access
Priority: high

DAYS 31 60 — Optimize local SEO meta tags and Google Business profile integration.

Why this matters: Strengthens local discoverability against IT park competitors.
Success metric: Updated meta titles and descriptions across core service pages
Dependency: SEO audit findings
Priority: medium

DAYS 61 90 — Streamline lead capture form fields and test WhatsApp direct widget performance.

Why this matters: Reduces friction in the user conversion journey.
Success metric: Lower form abandonment rate
Dependency: Web development resources
Priority: medium

09 Measurement plan

Organic Search Traffic
Indicates effectiveness of on-page SEO and keyword optimization.

How to measure: Google Analytics and Google Search Console impressions/clicks
Baseline: Unavailable in current evidence

Lead Form Submissions
Measures primary conversion performance of the website.

How to measure: Form submission tracking events
Baseline: Unavailable in current evidence

10 Supporting findings

Strengths supported by evidence

Established Digital Presence
Priority: low • Confidence: high • Category: branding

Active website featuring professional branding, clear service pillars, and verified Google Partner certifications.

Evidence: Homepage inspection results show active navigation, Google Partner badges, and comprehensive service breakdowns.
Recommended action: Continue maintaining active trust signals across all digital properties.
Expected impact: Maintains brand credibility.

Risks and weaknesses

Missing Image Alt Attributes
Priority: high • Confidence: high • Category: seo

A high volume of images lack alt text, hindering SEO and accessibility.

Evidence: 72 out of 131 inspected images lacked alt tags.
Recommended action: Add descriptive alt attributes to all site images.
Expected impact: Improves accessibility and image search indexing.

Recommended improvements

Enhance Conversion Funnel Interactivity
Priority: medium • Confidence: medium • Category: conversion

Adding interactive elements like cost calculators can boost engagement.

Evidence: Current contact mechanisms are limited to static forms.
Recommended action: Deploy a project scoping calculator or interactive lead magnet.
Expected impact: May increase qualified lead volume.
