01 Executive intelligence brief

Executive summary

Tech Arch Softwares is a B2B IT and digital marketing service provider located in the IT Park, Sector 22, Panchkula, Haryana, specializing in web development, SEO, digital marketing, funnel development, and branding solutions.

Current position: The company operates an existing WordPress-based web presence with structured service pages, a contact form, and multiple client testimonials, backed by physical operations in Panchkula's IT hub.

Biggest opportunity: Improving on-page technical optimization—specifically adding alternative text to images and streamlining site architecture—to enhance local search visibility and inbound lead generation.

Confidence: medium

Key risks

- High proportion of images lacking alt text impacting accessibility and image search performance
- Proximity to co-located IT and software competitors in the same tech park building
- Reliance on standard contact forms without instant quote or interactive conversion widgets

02 Business model & customer acquisition

Business model: B2B IT and Digital Marketing Service Provider

Products and services

- Web Development
- Digital Marketing
- Search Engine Optimization (SEO)
- Funnel Development
- Creative Logo and Graphics
- Responsive Design
- Pay-Per-Click Advertising (PPC)

Target audiences

- Small to medium businesses
- Corporate organizations
- Entrepreneurs and brand owners seeking online growth

Customer acquisition channels

- Official website (techarchsoftwares.com)
- Direct inbound inquiries via phone and contact forms
- Social media channels (LinkedIn, Instagram, Facebook, Twitter)
- Google Maps and local directory listings

Verified facts

- Tech Arch Softwares is located at Twin Tower, Plot No. 7, 3rd Floor, IT Park, Sector 22, Panchkula, Haryana 134116 [Source: https://magicpin.in/Panchkula/Sector-2/Other/Tech-Arch-Softwares-Pvt.-Ltd-%7C-Web-Development-and-Digital-Marketing-Experts/store/224a0b9].
- The official website is https://www.techarchsoftwares.com/ [Source: https://magicpin.in/Panchkula/Sector-2/Other/Tech-Arch-Softwares-Pvt.-Ltd-%7C-Web-Development-and-Digital-Marketing-Experts/store/224a0b9].
- The business phone number listed is 0172 299 6009 [Source: Inspection data].
- The business operates as a full-suite digital marketing and web development agency established around 2014 [Source: https://in.linkedin.com/company/techarchsoftwares].

Assumptions to validate

- Assumption: The business targets international clients across the US, Australia, and India based on multiple global office/contact listings found in their footer data.
- Assumption: The primary revenue model relies on project-based web development fees and retainer-based digital marketing services.

03 Local market & positioning

Tech Arch Softwares is positioned within a localized IT park hub in Panchkula, offering digital transformation services to regional and potentially international clients.

Local market signals

- Co-located within the HSIIDC IT Park in Sector 22, Panchkula, alongside other tech and digital agencies.
- Active digital footprint across regional business directories and social professional platforms.

Differentiation opportunities

- Showcasing localized case studies and quantifiable success metrics from regional clients.
- Emphasizing specialized digital funnels alongside standard web development.

Evidence gaps

- Lack of specific market share data, exact revenue figures, and precise local ranking reports.

04 Competitor intelligence

TeQ Mavens

Location relevance: Located in the same tech park building (Twin Tower, Sector 22, Panchkula)
Website: https://www.teqmavens.com/
Observable strengths

- Custom mobile application development focus
- Direct geographic proximity in IT Park Sector 22

Comparison: Direct local competitor sharing the same IT park environment; focuses heavily on custom app development.
Confidence: high
Sources: https://www.teqmavens.com/contact

Technijian India

Location relevance: Co-located in the IT Park Sector 22 hub in Panchkula
Website: https://technijian.in/
Observable strengths

- 24/7 IT support offerings
- Managed IT services positioning

Comparison: Competes in the broader technology services space within the same Panchkula IT hub.
Confidence: high
Sources: https://technijian.in/contact-us

05 Digital presence & customer journey

Website status: verified_existing
Users arrive via search engines or social media to the homepage, navigate through service categories such as web development or digital marketing, and convert via a WordPress contact form or WhatsApp quick link.

Channels found

- Official Website (https://www.techarchsoftwares.com/)
- LinkedIn Company Page
- Instagram Profile
- Facebook Page
- Twitter Profile
- YouTube Channel
- Google Maps Listing

Visibility gaps

- 72 out of 131 inspected images lack alternative text, creating a disadvantage for image-based SEO and accessibility.
- Redundant heading structures and duplicate sections on the homepage.

Trust and conversion gaps

- Absence of interactive lead-generation tools like cost calculators or instant booking widgets.
- Portfolio proof relies heavily on testimonials rather than structured, data-driven case studies.

06 Strategic insights

Image Accessibility and Technical SEO Deficit

Priority: high • Confidence: high • Category: seo

Out of 131 inspected images on the main page, 72 lacked alternative text.

Evidence: Website inspection data reveals 72 images without alt attributes.
Recommended action: Add descriptive alt text containing relevant service and local keywords to all website images.
Expected impact: May improve technical SEO compliance and image search visibility.

Conversion Pathway Optimization Opportunity

Priority: medium • Confidence: medium • Category: conversion

The primary conversion mechanism relies entirely on a standard contact form without interactive engagement elements.

Evidence: Inspection of form elements shows a single WordPress contact form implementation.
Recommended action: Incorporate interactive estimation calculators or clear meeting booking widgets to reduce form friction.
Expected impact: May reduce booking friction and increase lead conversion rates.

07 Prioritized growth opportunities

Enhanced Local and Regional SEO Targeting

Priority: high • Confidence: medium • Category: seo

Leveraging the Panchkula IT Park location to capture localized search traffic for web and mobile app development.

Evidence: Business address is verified in Sector 22 IT Park, Panchkula, alongside localized competitors.
Recommended action: Optimize landing pages specifically for regional terms targeting Panchkula and Chandigarh IT services.
Expected impact: May increase inbound regional discovery and high-intent local inquiries.

08 30 / 60 / 90-day action plan

FIRST 30 DAYS — Audit and fix missing alternative text on all website images.

Why this matters: Improves basic on-page SEO health and accessibility compliance.
Success metric: 100% of inspected images having descriptive alt text.
Dependency: Access to CMS/WordPress backend.
Priority: high

DAYS 31 60 — Streamline homepage heading tags and remove redundant layout sections.

Why this matters: Enhances code cleanliness and user reading flow.
Success metric: Cleaner HTML structure and reduced DOM size.
Dependency: Completion of image optimization audit.
Priority: medium

DAYS 61 90 — Implement an interactive consultation scheduling widget on service pages.
Why this matters: Reduces friction for prospective clients looking to book discovery calls.
Success metric: Increase in completed consultation bookings.
Dependency: Selection and integration of a scheduling tool.
Priority: medium

09 Measurement plan

Image SEO & Accessibility Compliance
Ensures search engine crawlers can index visual assets and screen readers can parse the site.

How to measure: Regular technical SEO crawls (e.g., Screaming Frog or Lighthouse).
Baseline: 72 out of 131 images missing alt text.

Inbound Lead Form Submissions
Tracks direct commercial conversion performance from website visitors.

How to measure: Google Analytics goal completions on contact form submissions.
Baseline: Baseline unavailable without direct analytics integration.

10 Supporting findings

Strengths supported by evidence

Established Digital Presence
Priority: low • Confidence: high • Category: branding

Active website featuring verified client testimonials, social links, and clear service lines.

Evidence: Website inspection confirms functional pages and active social channels.
Recommended action: Maintain regular updates to showcase fresh client wins.
Expected impact: Sustains brand credibility.

Risks and weaknesses

Image Accessibility Gaps
Priority: high • Confidence: high • Category: seo

Majority of images lack alt text attributes.

Evidence: 72 out of 131 images without alt tags during inspection.
Recommended action: Assign descriptive alt attributes to all images.
Expected impact: Improves SEO health.

Recommended improvements

Streamline On-Page Structure
Priority: medium • Confidence: medium • Category: seo

Reduce heading redundancies and improve markup clarity.

Evidence: Duplicate and repetitive heading tags observed on homepage.
Recommended action: Refactor heading hierarchy for better crawler interpretation.
Expected impact: Cleaner on-page architecture.
