# Tech Arch Softwares

Growth Opportunities & Market Position Report

**BUSINESS PROFILE**

Category: Services
Location: Twin Tower, Plot No. 7, 3rd Floor, IT Park, Sector 22, Panchkula, Haryana 134116
Website: https://www.techarchsoftwares.com/
Report ID: cmvrshiso0000ycf0kobfbbe1
Generated: 28 Oct 2026

## 01 Executive intelligence brief

**Executive summary**

Tech Arch Softwares is a web development and digital marketing agency based in Panchkula, Haryana, offering comprehensive IT solutions, software development, web design, and digital marketing services.

**Current position:** The business operates an existing website (https://www.techarchsoftwares.com/) utilizing a WordPress CMS, displaying multiple office locations, client testimonials, and a clear list of service offerings.
**Biggest opportunity:** Enhancing on-page accessibility, image SEO (adding alt attributes), and strengthening local SEO schema markup to capture higher-intent regional traffic in the IT Park sector.
**Confidence:** high

**Key risks**

- Incomplete image alt text across a significant number of site assets impacts accessibility and search engine readability.
- Reliance on external asset hosting (such as staging or builder domains) for core branding assets.

## 02 Business model & customer acquisition

**Business model:** B2B service provider offering IT, software development, web design, and digital marketing solutions on a project or retainer basis.

**Products and services**

- Digital Marketing
- Sales-Driven Funnel Development
- Creative Logo & Graphics
- Website Development
- Responsive Design
- Search Engine Optimisation (SEO)
- Pay-Per-Click advertising (PPC)

**Target audiences**

- Small and medium businesses seeking online growth
- Enterprises looking for web development and digital marketing
- Brands wanting sales funnel development and custom software solutions

**Customer acquisition channels**

- Official website and contact forms
- Social media channels (LinkedIn, Instagram, Facebook, YouTube)
- Direct messaging via WhatsApp integration
- Local presence in Panchkula IT Park

**Verified facts**

- Tech Arch Softwares is located at Twin Tower, Plot No. 7, 3rd Floor, IT Park, Sector 22, Panchkula, Haryana 134116 [Source: business profile]
- The official website is https://www.techarchsoftwares.com/ [Source: https://techarchsoftwares.com/]
- The contact phone number is 0172 299 6009 [Source: business profile]
- The company's leadership includes Mohan Singh (Chief Operation Head), Jitender Chauhan (CEO & Business Analyst), and Pankaj Nagpal (CTO & CFO) [Source: https://techarchsoftwares.com/about-us]

**Assumptions to validate**

- The business operates primarily on a project-fee or retainer model typical of digital agencies.
- Target clients range from local businesses to international clients requiring offshore web development.

## 03 Local market & positioning

Positioned within an established IT park hub in Panchkula, Tech Arch Softwares competes in a localized technology and digital services market alongside nearby software firms.

**Local market signals**

- Operating out of Twin Tower, IT Park, Sector 22, Panchkula, Haryana
- Proximity to other regional IT and tech service providers within the same business park.

**Differentiation opportunities**

- Highlighting verified client testimonials and successful case stories directly on service landing pages.
- Leveraging localized IT Park presence for regional B2B trust building.

**Evidence gaps**

- Exact local market share, precise traffic figures, and regional competitor rankings are not available in the supplied research.

## 04 Competitor intelligence

### TeQ Mavens

**Location relevance:** Located in the same building/IT park in Panchkula, offering proximity-based IT services.
**Website:** https://www.teqmavens.com/contact

**Observable strengths**

- Established web and mobile application development positioning.

**Comparison:** Direct local competitor operating within the same technology park environment.
**Confidence:** medium
**Sources:** https://www.teqmavens.com/contact

## 05 Digital presence & customer journey

**Website status:** verified_existing

Visitors land on a feature-rich homepage detailing services, team information, and customer reviews, with direct calls to action leading to contact forms or WhatsApp communication.

**Channels found**

- https://techarchsoftwares.com/
- https://www.facebook.com/techarchsoftwares
- https://twitter.com/TechSoftwares
- https://www.youtube.com/channel/UCV53cIKzBuIqH04Sh8Kvo3Q
- https://www.linkedin.com/company/techarchsoftwares/?originalSubdomain=in
- https://www.instagram.com/techarchsoftwares/
- https://api.whatsapp.com/send/?phone=%2B918288853576

**Visibility gaps**

- A high proportion of site images lack alt text attributes (72 out of 131 images without alt text), which may hinder image SEO and screen-reader accessibility.

**Trust and conversion gaps**

- Some brand logos are hosted externally on staging/builder domains (e.g., wpengine URLs), which may detract from professional brand presentation.

## 06 Strategic insights

**Image Accessibility and On-Page SEO Optimization**

Priority: medium • Confidence: high • Category: seo

Out of 131 images inspected on the homepage, 72 images lack alt text attributes.
**Evidence:** Website inspection data indicates 72 images without alt attributes.
**Recommended action:** Populate descriptive alt text across all images to improve search engine crawling and accessibility compliance.
**Expected impact:** May improve organic search visibility and accessibility compliance scores.

**Brand Asset Hosting Consistency**

Priority: low • Confidence: high • Category: branding

Primary company logo is currently hosted on an external staging domain (wpengine.com).
**Evidence:** Observed logo URL points to tasoftwares.wpengine.com.
**Recommended action:** Migrate logo and critical media assets to the primary production domain hosting environment.
**Expected impact:** Ensures brand asset reliability and cleaner asset management.

## 07 Prioritized growth opportunities

**Conversion Rate Optimization via Streamlined Lead Capture**

Priority: medium • Confidence: medium • Category: conversion

Improving form accessibility and interactive elements can capture higher intent from visitors.
**Evidence:** Contact form is present but can be optimized with friction-reducing UI patterns.
**Recommended action:** Integrate interactive calculators or direct booking widgets to complement existing contact forms.
**Expected impact:** May increase form completion rates and lead generation inquiries.

## 08 30 / 60 / 90-day action plan

### FIRST 30 DAYS — Audit and populate missing alt text attributes for all website images.

**Why this matters:** Addresses basic on-page SEO and accessibility gaps.
**Success metric:** 100% of inspected site images equipped with descriptive alt text.
**Dependency:** CMS access
**Priority:** high

### DAYS 31 60 — Migrate external branding assets (logos, favicons) to the primary production domain.

**Why this matters:** Ensures asset stability and professional brand integrity.
**Success metric:** All brand assets hosted locally on production domain.
**Dependency:** Hosting file manager access
**Priority:** medium

### DAYS 61 90 — Refine service landing pages and strengthen local schema markup for the Panchkula office address.

**Why this matters:** Enhances local search discoverability and regional authority.
**Success metric:** Validated local business schema markup.
**Dependency:** Developer implementation
**Priority:** medium

## 09 Measurement plan

### Image Alt Text Coverage

Crucial for web accessibility standards and image search visibility.
**How to measure:** Website crawler audit tools.
**Baseline:** 72 out of 131 images missing alt text

### Lead Form Submissions

Direct indicator of digital acquisition performance.
**How to measure:** Google Analytics goal completions / CRM lead logs.
**Baseline:** Baseline unavailable in current public data

## 10 Supporting findings

### Strengths supported by evidence

#### Comprehensive Service Offerings

Priority: low • Confidence: high • Category: business

Covers a wide range of IT solutions including web development, digital marketing, and funnel development.
**Evidence:** Service offerings explicitly listed on homepage and navigation.
**Recommended action:** Continue showcasing diverse IT capabilities clearly.
**Expected impact:** Maintains clear communication of agency capabilities.

### Risks and weaknesses

#### Incomplete Image Accessibility

Priority: medium • Confidence: high • Category: accessibility

Over half of the homepage images lack alt text attributes.
**Evidence:** Inspection data shows 72 of 131 images without alt text.
**Recommended action:** Add descriptive alt attributes across all site images.
**Expected impact:** Improves accessibility and SEO posture.

### Recommended improvements

#### Asset Hosting Migration

Priority: low • Confidence: high • Category: operations

Moving branding assets from staging environments to production.
**Evidence:** Logo hosted on wpengine staging domain.
**Recommended action:** Host logo and core media directly on production server.
**Expected impact:** Cleaner asset management and branding reliability.

## Limitations

- Detailed web traffic analytics, keyword rankings, and exact revenue figures were not available in the inspection or research data.
- Immediate local competitor mapping is limited due to sparse public directory records in the specific IT Park building.

Interpretation note: This report distinguishes supplied evidence from assumptions. Qualitative impact statements are hypotheses to validate; no revenue, traffic, or conversion lift is guaranteed.
