Report

Findings

Title: Unprofessional Placeholder Text in Testimonials

Category: content

Evidence: Multiple testimonials display repeated placeholder text like 'Stephen Warley job title, comapny' underneath legitimate reviewer names.

Severity: high

Confidence: high

Expected Impact: Increases credibility and professionalism of the social proof section.

Recommendation: Update each testimonial card with the correct job titles and company names of the respective clients.

Title: Duplicate and Weak H1 Heading

Category: seo

Evidence: The current H1 heading is 'We Love to do', which lacks targeted keywords for web development and digital marketing services.

Severity: medium

Confidence: high

Expected Impact: Improves on-page SEO clarity and immediate user understanding.

Recommendation: Rewrite the H1 to clearly state the core value proposition and include primary keywords like 'Complete Web & Digital Marketing Solutions'.

Title: Duplicate Content Descriptions for Services

Category: content

Evidence: The 'WEBSITE DEVELOPMENT' section uses the exact same paragraph text as the 'DIGITAL MARKETING' section.

Severity: medium

Confidence: high

Expected Impact: Enhances user clarity and avoids duplicate content signals.

Recommendation: Draft unique, accurate descriptions detailing the specific technical scope of the website development services.

Action Plan

Task: Fix Testimonial Attribution Metadata

Priority: P0

Rationale: Incorrect placeholder metadata damages agency credibility and looks unprofessional.

Deliverable: Updated website code with verified job titles and companies for all testimonials.

Acceptance Criteria

- All occurrences of placeholder text are removed
- Every testimonial displays accurate client names, titles, and companies

Task: Revise H1 Heading and Meta Copy

Priority: P1

Rationale: Improves organic search alignment and makes the primary value proposition instantly clear.

Deliverable: Optimized H1 tag and updated copy across the homepage banner.

Acceptance Criteria

- H1 clearly communicates web development and digital marketing offerings
- No duplicate placeholder text remains in header elements

Task: Rewrite Duplicate Service Section Descriptions

Priority: P1

Rationale: Using identical text for different services creates user confusion and hurts SEO quality.

Deliverable: Unique, descriptive copy written specifically for the website development service block.

Acceptance Criteria

- Website development and digital marketing sections contain distinct, relevant descriptions

Limitations

- Only a single page (homepage) was inspected, leaving interior pages unvetted.
- No external competitors were explicitly provided in the evidence, so competitor insights have been omitted as instructed.
- Live performance metrics, server response codes, and accessibility compliance could not be verified without technical testing tools.

Design Direction

Imagery: Professional vector illustrations, abstract technology graphics, and authentic team or workspace photography.

Typography: Sans-serif typefaces like Inter or Roboto for optimal readability across modern desktop and mobile viewports.

Visual Style: Modern, clean, and professional corporate IT agency aesthetic with a strong emphasis on digital growth and technology.

Color Direction: Trust-building deep blues combined with high-contrast accent colors like vibrant cyan or electric green for calls-to-action.

Layout Principles

- Modular grid system for service cards and client feedback sections
- Generous whitespace to improve readability and visual hierarchy
- Prominent and consistent placement of contact and conversion triggers

Interaction Principles

- Smooth scroll effects and subtle hover animations on interactive service cards
- Clear visual feedback on form inputs and submission buttons

Business Overview

Summary: Tech Arch Softwares is a digital agency located in Panchkula, Haryana, providing comprehensive web development, digital marketing, SEO, and software solutions.

Services

- Web Development
- Digital Marketing
- Funnel Development
- Creative Logo Design
- Responsive Design

Business Model: B2B service provider offering IT, web design, software development, and digital marketing agency services.

Customer Goals

- Scale their business faster and more efficiently
- Transform ideas into recognized brands
- Build professional and functional websites
- Convert online leads into paying customers

Target Audience

- Small and medium-sized business owners
- Corporate organizations requiring web maintenance or development
- Entrepreneurs looking for digital marketing and funnel development

Website Assessment

Strengths

- Extensive and detailed client testimonials providing social proof
- Clear contact information including multiple international locations and phone numbers
- Straightforward presentation of core agency offerings

Weaknesses

- Confusing placeholder copy in testimonials (e.g., repeating 'Stephen Warley job title, company')
- Duplicate headings such as 'We’re Certified'
- Vague or placeholder-style H1 heading ('We Love to do')
- Website development section features repeated description text borrowed from digital marketing

Evidence Gaps

- Only one page (homepage) was inspected, requiring manual verification of interior service and about pages
- Lack of live performance metrics and accessibility audits

Overall Summary: The website provides basic information about the agency's services, client reviews, and contact details on a single inspected page, but contains formatting flaws in its copy and testimonial sections.

We also provide funnel development services to take your business to new heights OUR PROCESS How We Work at Smart Web Company Very good developers! Quick workers, accurate results and extremely professional. As a designer, the process of working with them is a breeze and the final product matches my designs very well! Todd Pazicini Stephen Warley job title, comapny I have been working with Tech Stars for almost 2 years now. I’ve hired my fair shared of web developers and designers, and they have been among one of the most reliable firms I have ever worked with! They are very attentive and turn around projects amazingly fast! Stephen Warley Stephen Warley job title,

comapny I worked directly with Pankaj for 3 months and he and his team were awesome!!! Fast and easy communication. Fast and detailed with with my development requests. Created a professional looking and functioning site for my organization. Excited to build website number 2 with his team! Ben Cecchini Stephen Warley job title, comapny Tech Arch has been very patient, responsive, and communicative to meet our deadlines and changes. They are professional and are able to problem solve to create solutions for a terrific output. Lindsey Price Criswell Stephen Warley job title, comapny Tech Arch Softwares Pvt. Ltd. has done several WordPress projects for me and they all have come out great. Overall a great experience. Michelle Justice Stephen Warley job title, comapny Highly recommended for web development. Pankaj is a consistent professional that always looks out for me. Tim Jobe Stephen Warley job title, comapny I have used Pankaj for the last 3 years to help me set up my complete website for company! Pankaj has been so reliable and helpful with everything i needed done. Thoroughly recommend Pankaj and his company. Kristy Howell Stephen Warley job title, comapny Pankaj has been an amazing support for our organization. He quickly resolves all types of database and development issues and I would highly recommend hi knowledge and project accumen. Rick Tobin Stephen Warley job title, comapny I have worked with Pankaj and his team for well over a year now. They have been integral partners in the success of my marketing business. They are always prompt, professional, and get the job done above expectations. I highly recommend them for anyone who is looking for a development team. Richard Ward Stephen Warley job title, comapny Engaged with Pankaj/Mohit to update two websites, and we were short on time, and the work they did was great, it was efficient and fairly priced, I would strongly recommend this resource. Russell Jones Stephen Warley job title, comapny Pankaj is very responsive and helped us move forward with a number of issues we had with our site. His ideas on planning and communication were very helpful. Skillwave Stephen Warley job title, comapny Great job. Unfortunately, didn’t get much of a chance to use him but he was highly responsive and seemed very confident to do whatever I asked. ManyChat | Zapier Stephen Warley job title, comapny Excellent Customer Service! Very detailed in helping with all our web development needs and did a fantastic job while working on our schedule.
