Generated: 23 Oct 2026

Brand Identity

Primary color: #17365D

#17365D

Branding notes: No explicit logo, favicon, theme color, or font family data was captured during the inspection pass.
No company logo was detected during website inspection.

Pros

Clear Service Offerings

The homepage clearly outlines core offerings including digital marketing, funnel development, creative logo, website development, and responsive design.

Evidence: Headings and text excerpt display sections for DIGITAL MARKETING, Funnel Development, CREATIVE LOGO, WEBSITE DEVELOPMENT, and RESPONSIVE DESIGN.
Priority: low
Recommended action: Continue highlighting primary services clearly on the landing page.
Expected impact: Maintains user clarity regarding available services.

Presence of Client Testimonials

The website incorporates positive client reviews and feedback, establishing social proof.

Evidence: Text excerpt contains multiple testimonials praising developer performance, responsiveness, and project completion.
Priority: low
Recommended action: Keep testimonials prominently displayed near call-to-action sections.
Expected impact: Builds trust with prospective clients visiting the site.

Comprehensive Contact and Location Information

The business provides essential communication channels including social links, WhatsApp contact, and a physical address.

Evidence: Footer contains links to Facebook, Twitter, YouTube, LinkedIn, Instagram, WhatsApp, and the business metadata shows an address in Panchkula, Haryana.
Priority: medium
Recommended action: Ensure contact forms and communication endpoints are regularly tested for deliverability.
Expected impact: Improves conversion rates by making it easy for leads to reach out.

Cons

High Ratio of Images Missing Alt Text

A significant number of images on the inspected page lack alternative text attributes, which negatively impacts accessibility.

Evidence: Out of 131 total images, 72 images do not have alt text.
Priority: medium
Recommended action: Add descriptive alternative text to all informational and decorative images.
Expected impact: Enhances screen-reader compatibility and overall accessibility compliance.

Duplicated Heading Structures

The page contains repeated headings such as 'We’re Certified', which can dilute semantic SEO structure.

Evidence: H2 headings list 'We’re Certified' twice on the same page.
Priority: low
Recommended action: Consolidate duplicate headings and ensure each section utilizes unique descriptive titles.
Expected impact: Improves semantic hierarchy for search engine crawlers.

Improvements

Add Descriptive Alt Attributes to Images

72 out of 131 images are missing alt text, creating barriers for visually impaired users.

Evidence: Inspection data shows 131 total images with 72 without alt tags.
Priority: medium
Recommended action: Audit all graphical assets in the content management system and add relevant, descriptive alt text.
Expected impact: Improves accessibility score and inclusive user experience.

Refine Heading Hierarchy for SEO

Duplicate H2 headings ('We’re Certified') are present, reducing structural clarity.

Evidence: Extracted headings list identical H2 tags consecutively.
Priority: low
Recommended action: Review the template layout to eliminate redundant heading elements and establish a clean chronological hierarchy.
Expected impact: Optimizes on-page SEO structure.
