Pros

Clear Service Offerings

The homepage clearly outlines core agency capabilities such as web development, digital marketing, funnel development, and responsive design.

Evidence: Headings and sections present on the homepage include 'DIGITAL MARKETING', 'Funnel Development', 'CREATIVE LOGO', and 'WEBSITE DEVELOPMENT'.
Priority: low
Recommended action: Maintain these clear service pathways and ensure each links directly to dedicated deep-dive service landing pages.
Expected impact: Helps visitors quickly understand the scope of services offered.

Extensive Testimonials and Social Proof

The homepage displays a strong volume of client testimonials and reviews endorsing the development team's communication, speed, and professionalism.

Evidence: Multiple client quotes from named individuals such as Todd Pazicini, Stephen Warley, and Tim Jobe are rendered directly in the HTML text excerpt.
Priority: medium
Recommended action: Keep testimonials updated and link them to verified third-party review profiles where possible.
Expected impact: Builds trust and credibility with prospective B2B clients.

Cons

High Ratio of Images Missing Alt Text

Out of 131 total inspected images, 72 lack alt attributes, which impacts accessibility for screen reader users and hurts image SEO.

Evidence: Image statistics show total: 131, withAlt: 59, withoutAlt: 72.

Priority: high
Recommended action: Audit all images across the site and add descriptive alt text to the remaining 72 images.
Expected impact: Improves screen reader accessibility and search engine image indexing.

Duplicate Section Heading Content

The heading 'We’re Certified' is repeated consecutively in the HTML structure.

Evidence: The headings array contains duplicate entries for 'We’re Certified'.
Priority: low
Recommended action: Consolidate or remove duplicate heading declarations in the DOM.
Expected impact: Enhances semantic HTML cleanliness and structural hierarchy.

Improvements

Add Descriptive Alt Text to All Images

Over half of the site's images lack alt text, hindering accessibility compliance.

Evidence: Inspection reports 72 images without alt attributes out of 131 total.
Priority: high
Recommended action: Implement descriptive alt tags for all informative images across the website templates.
Expected impact: Enhances overall web accessibility and inclusive user experience.
