Brand Identity

Primary color: #64748B

#64748B

Branding notes: No official branding color hex codes, font families, or distinct image logo URLs were explicitly confirmed in the provided inspection evidence.
No company logo was detected during website inspection.

Pros

Comprehensive Social Media Integration

The website includes direct links to active social media profiles including Facebook, YouTube, Instagram, and Twitter.

Evidence: Footer links point to https://www.facebook.com/mivranfs, https://www.youtube.com/@Mivranfs, https://www.instagram.com/mivranfs/, and Twitter.
Priority: low
Recommended action: Continue actively updating these channels with training highlights to build community engagement.
Expected impact: Maintains strong external brand touchpoints and parent engagement.

Clear Contact Information and Multiple Locations

The website provides transparent contact details including a phone number, email address, and explicit training center locations.

Evidence: Phone number +91 73411 36804 and multiple center locations across Mohali, Panchkula, and Chandigarh are listed on the training center page.
Priority: medium
Recommended action: Keep location schedules and contact details up-to-date as new training centers open.
Expected impact: Helps parents easily find nearby coaching facilities and inquire about admissions.

Detailed Program and Tournament Offerings

Extensive content outlines various age categories, training regimens, and a wide variety of organized tournaments.

Evidence: Dedicated pages exist for training centers, tournaments (listing events like Mivran Football League and Youth Premier League), and about information.
Priority: low
Recommended action: Keep updating tournament schedules and results to highlight ongoing student achievements.

Expected impact: Informs prospective parents about competitive exposure and structured player development.

Cons

Image Upload and Size Errors

Multiple photo files on the website exceeded the maximum content length size limit during inspection.

Evidence: Inspection errors indicate multiple files such as /photos/img1.JPG, /photos/img2.JPG, etc., exceeded the 2097152 size limit.
Priority: high
Recommended action: Compress and optimize all photo files in the gallery to prevent load failures and improve user experience.
Expected impact: Ensures all gallery photos load correctly without errors for prospective visitors.

Improvements

Optimize Gallery Image File Sizes

Several photo files on the gallery page are oversized and trigger content length limit warnings.

Evidence: Inspection log lists 12 individual JPG files failing with maxContentLength size of 2097152 exceeded errors.
Priority: high
Recommended action: Resize and compress all high-resolution images in the photo gallery to standard web-friendly dimensions and file sizes.
Expected impact: Improves page load speeds and eliminates broken or failing image assets in the gallery.
